we know you have searched for it and seen many videos that claim to have programs that can hack or cheat the imvu system to generate thousands of credits to your imvu account unfortunately none of that is true and it's all a scam to waste your time i have tested countless of these so called programs out there and none of them work you're probably saying to yourself what if there is actually one that actually works and can generate credits that's highly unlikely why because it's impossible for a program to attach to your imvu account and get on the imvu database because your information is protected and the database is encrypted i tried these false programs out just to prove my point in all of them being fake so please don't waste your time
