for content creators that are using tiktok for generating revenue or to advertise different products or services or their brand the tiktok promote feature is a useful tool as it allows you to filter out your audience by age gender and interests as tiktok is a platform that generates more engagement on views rather than other platforms and this is the reason that sponsored content is generating more interest among the audience

purchasing tiktok coins is a straightforward process follow this simple instruction if you want to learn how to gain tiktok coins 1 log into your tiktok account and go to your profile 2 select the settings icon in the top right corner of the screen 3 from the drop down option that opens select my portfolio 4 select an alternate quantity for the number of coins you wish to acquire 5 on the following screen enter your payment information you will be transported to the confirmation page once you have selected your quantity you verify the acquisition at this step same as you would with a card touch id samsung payment or whatever method you use once the transaction is complete the number of coins you purchased will be added to the total amount in your tiktok wallet account at this point you are free to use your coins anyway you see fit and whenever you desire the current value in us dollars is displayed together with the number of coins you have selected however despite the oscillations of the exchange classes this does not vary significantly the tiktok coin concept proved to be more difficult to explain in detail than i had anticipated when you first enter into the tiktok application everything is quite straightforward you purchase coins which you may then swap for diamonds or emojis

although you might only know of one way you can get coins which is through buying them using real money however there are some other ways that people also use to get tiktok coins for free and without any expenditure of money saying that you have to be careful and must have the right approach as there are many scammers who center their scams on the topic of free tiktok coins

tiktok is very strict with moderating their platform and have been known to completely shut down and delete accounts that they suspect of hacking or cheating even if these tiktok coin generators systems worked they wouldn't be worth the risk

the first and simplest way is to receive them as gifts users can send coins to someone else but you have to invest time and make content that will invite people to send you coins ask yourself is the time it takes to do that worth the small amount you'd save

content creation is not a simple task as it takes a lot of time and effort to create only a single video so tiktok has added a token to their platform which can be bought using real money and then you can use this token and send it to your favorite content creators this essentially means that you are sending small gifts to the content creators and channels that you like which they can further withdraw in the form of real money

coins can be bought with real money but there are a few ways to get coins for free you just have to know the right approach be careful though there are a lot of scams centered around free tiktok coins
