with the visual effect e.g. the shiny colours and the ease of completing a transaction combined with peer pressure and the need to reciprocate when an influencer has fulfilled the demand of the audience spending money on tiktok can be a hasty action professor raian told sun online

tiktok is very strict with moderating their platform and have been known to completely shut down and delete accounts that they suspect of hacking or cheating even if these tiktok coin generators systems worked they wouldn't be worth the risk

the more valuable your gift is the greater your chances of winning however nothing is guaranteed and even if you send many gifts there is still a chance that your tiktok will be taken away from you by someone else

however a creator can check their balance at any time and withdraw diamonds in exchange for monetary compensation at a rate that tiktok calculates based on various factors including the number of diamonds a user has you will need first to link a paypal account to be able to withdraw money from tiktok

the first thing that you notice is that tiktok relies on their coins to generate revenue so giving them away for free is not an option that is why tiktok is constricting ways to send other people some free coins and this is why none of these methods are guaranteed

first we will convert these coins into diamonds to calculate the value of these coins 100 tiktok coins are equal to 50 diamonds and this is because each coin is equal to half of a diamond and as the value of each diamond is given to be of 5 cents and 100 diamonds will be equal to 50

there are numerous scam websites and apps that claim to give users hundreds or thousands of tiktok coins but all are usually online scams designed to either hack your tiktok account collect personal data or obtain your credit card and banking information
