date me or cover the repair fee the dangerously handsome looking man said to lisa she glanced at the scratch on the sleek lamborghini and her heart sank she could never repay for that monstrosity ok i will date you she sighed just to escape paying the compensation his lips curled into a smug smile she belonged to him she was his gift and she had no idea what he would do to her another werewolf story

**mature content 18 i hate you angelina cried out while beating his chest with her hands danzel just smirked at her little attempt he lowered himself until he could feel the fear from her breaths and said oh my love you can hate as much as you want it doesn't affect me either way but one thing you get straight into that brain of yours is that there is no escape from me i am your biggest nightmare angelina's eyes widened in fear but little did she know that she was just waking up the dead feelings in his heart contains sexual scenes abusive language and explicit scenes**

**i never met my real father living in a small werewolf community there were always rumors but i never really paid much attention i only listened to what my mother said about him and she never talking about him so i assumed that it was something painful and i accepted that and left it alone being a single teenage mother she was shunned by the rest of the pack but she wasn't sent out to be rogue she managed to finish school go to college and become a doctor she is one of the most highly respected professions but they still treat us like vermin so when i started getting in numerous fights at school my mother decided it was time to pack up and leave go to a new pack and start fresh and that's where my story begins**

you have been promised to the grandson of a business partner there's no need for college you've already wasted enough time fooling around at school my brother's face pulled into a twisted grin you are part of the business deal

you wouldn't want all of the employees who depend on us for their jobs to suffer would you that was it the day my life changed i couldn't be selfish i had to take care of these people my family in every way possible my brother has seen fit to run our late parents company into the ground living a lifestyle he didn't earn now i have to marry a complete stranger as part of some twisted business contract i'm only 18 i just graduated high school i've only had one semi-serious relationship that went up in flames how was i supposed to be the wife of a very publicized womanizing billionaire

i had been a reader since childhood but has stopped when i was already working it was now in my senior years that the passion for reading came back i happen to browse at this website and started reading when his eyes opened i like how it was written but the idea of buying coins that will give you some chapters to go on reading and then buy another set of coins and so on just don't encourage me for just one book or novel this will cost the reader so much just to finish reading the book more expensive than buying a book at the store or on line per se i would rather suggest to put a price on each book published so as the reader would know if she would want to buy and start reading another idea is by subscription if a reader will subscribe to your website it will entitle her him to read all the books available for a certain period of time say a year or maybe a lifetime subscriber payment for subscription will be bi-annually so as to give the reader the chance to continue or just avail of it for just 6 months if she is not interested anymore subscription price must be affordable so as to entice a lot of readers while this your own method of charging the reader for some chapters will only discourage the reader to continue reading i for one can sacrifice not finishing reading the book if the charges is too much for the reader doesn't have any idea how much will cost her in finishing reading the book
